CMF COMMAND FORECAST

1. It may be highlighted that Plans Department HQ CMF has approached all CMF members for willingness to command CTFs from the available slots till 2028. In this regard, CMF Command Forecast indicating available slots are enclosed. Aforesaid in view, it is proposed that PN may consider bid for Command of CTF 150 or 151 for 2028 to continue atleast one CTF Command annually.
2. Above notwithstanding, it may be mentioned that only three billets (CCTF, COS & N3/ N5) are required to be occupied by nation commanding CTF 154. Rest of the billets are fixed and occupied by designated countries. Thus entailing few financial effects as compared to other CTFs while providing opportunity for command of one of CMF's CTFs. Therefore, PN may also consider taking over command of CTF 154 in future. In this regard, brochure and brief giving details about CTF 154 are enclosed.
3. Forwarding for information and consideration, please.
